RE: Docket No. OOP-1211/CP1
Docket No. No. 99N-4282

Dear Jane,

The following are interesting quotes I came across in Great Life Magazine, July 2000.

"Monsanto should not have to vouchsafe the safety of biotech food...Our interest is in selling as much of it as possible. Assuring its safety is the FDA's job"

--Phil Angell, director of corporate communications, Monsanto

"Ultimately, it is the food producer who is responsible for assuring safety."

--FDA Federal Register, "Statement of Policy: Foods Derived from New Plant Varieties"

Please make labeling of genetic engineered foods that have had "material changes" mandatory. I want to have the choice of not consuming such products.

Thank you,

Gail Thompson
